Attention WP Residents with [@comcast.net](#) email addresses:

The updated directory was emailed to the WP Email List on 9/6/2019, as an attachment. Residents with [@comcast.net](#) email may not have received the directory. Apparently, [@comcast.net](#) tags email sent to a group AND with an attachment as spam and either deletes it or saves it to your Spam folder, depending on your email settings.

If you didn't receive your directory, please reply to receive a copy.
